Various other writing assignments (to include talking papers, memorandums, briefings, etc) will bring the total number of written pages to more than 15 for the course. Students will research various Air Force related topics to enhance their understanding of the Air Force. Take for example leadership. The students will pick a leader of their choosing, do an in-depth study, followed by the paper in which they effectively articulate their understanding about leadership skills, abilities, and characteristics, and how they relate to the Air Force core values of integrity, service before self, and excellence in all we do. Their successful interpretation and understanding of leadership skills and abilities is necessary for them to become AF officers. The instructor will provide formal instruction regarding the paper's structure and organization, as well as, written commentary on review of the drafts.
